Independent Auditor's Report

To the Board of Directors

Downtown Development Authority

of the Charter Township of Van Buren

Wayne County, Michigan

We have audited the accompanying basic financial statements of the Downtown Development Authority of the Charter Township of Van Buren (a component unit of the Charter Township of Van Buren) as of December 31, 2004 and for the year then ended, as listed in the table of contents. These financial statements are the responsibility of the Downtown Development Authority of the Charter Township of Van Buren's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Downtown Development Authority of the Charter Township of Van Buren as of December 31, 2004 and the results of its operations for the year then ended, in conformity with accounting principles generally accepted in the United States of America.

The budgetary comparison schedule, as identified in the table of contents, is not a required part of the basic financial statements but is supplemental information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management, regarding the methods of measurement and presentation of the required supplemental information. However, we did not audit the information and express no opinion on it.

The accompanying financial statements do not present a management's discussion and analysis, which would be an analysis of the financial performance for the year. The Governmental Accounting Standards Board has determined that this analysis is necessary to supplement, although not required to be a part of, the basic financial statements.

Notes to Financial Statements December 31, 2004

Note I - Significant Accounting Policies

The Downtown Development Authority (the "Authority") of the Charter Township of Van Buren (the "Township") is organized pursuant to the State of Michigan Public Act No. 197 of 1975. The primary purpose of the Authority is to encourage economic activity in the Township. This purpose is accomplished by the Authority collecting captured property taxes under a tax increment financing plan in accordance with state law and budgeting expenditures for improvements in the Authority's district boundaries.

The Authority is a component unit of the Township and is included in the basic financial statements of the Township at December 31, 2004.

Basis of Accounting

The accounting policies of the Authority conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. There are no component units required to be included in these financial statements.

The following is a summary of the significant accounting policies:

The government-wide full accrual financial statements (the statement of net assets (deficit) and the statement of activities) are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. For the purpose of the government-wide financial statements, the Authority reports a liability for the outstanding 1995 Downtown Development Authority Bonds, which will be repaid through captured property taxes in future periods. A significant portion of the Authority's activities in previous years related to investments in infrastructure that are the property of and are reported as an asset in the basic financial statements of the Charter Township of Van Buren, Michigan rather than in the Authority's financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized in the accounting period in which they become susceptible to accrual - that is, when they become both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period, generally collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

Notes to Financial Statements
December 31, 2004

Note 2 - Reconciliation of Government-wide and Fund Financial Statements

The governmental fund balance sheet and statement of governmental fund revenue, expenditures, and changes in fund balance of the Authority's General Fund differ from the statement of net assets (deficit) and statement of activities. This difference results primarily from the long-term economic focus of the statement of net assets (deficit) and statement of activities versus the current focus of the General Fund balance sheet and statement of governmental fund revenue, expenditures, and changes in fund balance.

The statement of net assets (deficit) includes the capital assets and the long-term debt along with the accrued interest expense. The statement of activities includes the reclassification of the capital outlay to capital asset additions, depreciation expense, and the reclassification of the debt principal payments from the expense to offsetting the liability.

Note 3 - Budget Information

The annual budget is prepared by the Authority's board and adopted by the Township board; subsequent amendments are approved by the Authority's board and approved by the Township board. Unexpended appropriations lapse at year end; encumbrances are not included as expenditures. The amount of encumbrances outstanding at December 31, 2004 has not been calculated. During the current year, the budget was amended in a legally permissible manner. The budget has been adopted on a line-item basis and has been prepared in accordance with accounting principles generally accepted in the United States of America. A comparison of actual results of operations to the budget as adopted by the Authority's board is included in the required supplemental information.

Notes to Financial Statements December 31, 2004

Note 4 - Cash and Cash Equivalents

Michigan Compiled Laws Section 129.91 (Public Act 20 of 1943, as amended) authorizes local governmental units to make deposits and invest in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. The local unit is allowed to invest in bonds, securities, and other direct obligations of the United States or any agency or instrumentality of the United States; repurchase agreements; bankers' acceptances of United States banks; commercial paper rated within the two highest classifications, which matures not more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions, which are rated as investment grade; and mutual funds composed of investment vehicles that are legal for direct investment by local units of government in Michigan.

The Authority's deposits and investment policies are in accordance with statutory authority.

The Authority's deposits are included on the balance sheet under the following classifications:

	<u>Deposits</u>	Investments	Total	
Cash and cash equivalents Restricted assets (Note 8)	\$ 2,578,819 675,000	\$ 974,563 	\$ 3,553,382 675,000	
Total	\$ 3,253,819	\$ 974,563	\$ 4,228,382	

The above amounts are all classified by Governmental Accounting Standards Board Statement No. 3 as investments in securities, mutual funds, and similar vehicles.

Deposits

The bank balance of the Authority's deposits is \$3,253,819, of which \$100,000 is covered by federal depository insurance. The remainder was uninsured and uncollateralized. The Authority believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits. As a result, the Authority evaluates the financial institution with which it deposits Authority funds and assesses the level of risk of that institution; only those institutions with an acceptable estimated risk level are used as depositories.

Notes to Financial Statements
December 31, 2004

Note 4 - Cash and Cash Equivalents (Continued)

Investments

The Authority's investments during the year consisted solely of money market funds. There was \$974,563 invested in such funds at December 31, 2004. Investments are normally categorized to give an indication of the level of risk assumed by the Authority; however, the money market funds are not categorized because they are not evidenced by securities that exist in physical or book entry form. The Authority believes that the investments in the funds comply with the investment authority noted above.

Note 5 - Capital Assets

Capital asset activity of the Authority was as follows:

	Balance		Disposals	Balance		
	January I,		and	December 31,		
	2004	Additions	Adjustments	2004		
Capital assets not being depreciated:						
Construction in progress - Fire stations	\$ -	\$ 10,330	\$ -	\$ 10,330		
Land		505,822		505,822		
Total capital assets not being depreciated	-	516,152	-	516,152		
Capital assets being depreciated - Land improvements	1,384,497			1,384,497		
Subtotal	1,384,497	516,152	-	1,900,649		
Accumulated depreciation - Land improvements	158,707	76,245		234,952		
Net capital assets	\$ 1,225,790	\$ 439,907	<u> </u>	\$ 1,665,697		

Note 6 - Deferred Revenue

Governmental funds defer revenue recognition in connection with resources that have been received but not yet earned. As of December 31, 2004, the Authority received \$1,239,501 of property taxes levied for 2005, which will be recognized during the year ending December 31, 2005.

Notes to Financial Statements December 31, 2004

Note 7 - Long-term Debt

The Authority's debt consists of a 1995 revenue bond, which was issued for construction of the Township Hall, bearing interest at 8.4 percent and maturing through 2016.

The annual requirements to service the outstanding debt are as follows:

Years Ending							
December 31	<u> </u>	 Principal		Interest	Total		
2005		\$ 155,000	\$	383,460	\$	538,460	
2006		185,000		370,440		555,440	
2007		215,000		354,900		569,900	
2008		250,000		336,840		586,840	
2009		290,000		315,840		605,840	
2010-2014		2,165,000		1,136,520		3,301,520	
2015-2016		 1,305,000		168,420		1,473,420	
	Total	\$ 4,565,000	\$	3,066,420	\$	7,631,420	

Note 8 - Restricted Assets

Restricted assets as of December 31, 2004 consist of cash and cash equivalents totaling \$675,000. These assets are restricted for the purposes of the 1995 revenue bond debt, of which \$500,000 is for debt service reserves and \$175,000 is for working capital reserves. Fund balance/net assets have been reserved/restricted for \$675,000.

Note 9 - Risk Management

The Authority is exposed to various risks of loss related to torts, errors and omissions, and employee injuries (workers' compensation), as well as medical benefits provided to employees. The Authority is covered by insurance purchased by the Township for all claims.
